**CUSTOM CATERING**  
*A SPECIALTY AT THE GOOD LIFE GOURMET*

The good life Gourmet has built a reputation for being one of the beach's premier caterers. They are known for delicious food and superior service. Steve Mace, owner and head of catering, takes great pride in treating each event with kid gloves. He is known for his attention to detail and creative and innovative ideas.

Custom catering sums it all up. There are no prepared lists to choose from. You simply tell Steve what kind of food you like, what your budget is, and he will help you build your menu. If you have a favorite family recipe, he will be more than happy to serve that at your event. Steve will expertly guide you with your food choices. He has tons of experience, and he knows what kinds of foods hold up well for a catering.

Catering options include buffet dining, sit-down dining, or stations. Service people and bartenders are provided. The catering staff work hand in hand with Steve to create an outstanding and memorable experience for all guests.
